

Since 2004, Panduit and General Cable's world-class partnership has provided high-performance infrastructure solutions, guaranteed network performance and system reliability. The Prysmian Group acquisition of General Cable has brought additional strengths to the PanGen partnership with Prysmian's global footprint and increased fiber offerings. **Today, Panduit and Prysmian Group bring the broadest range of cables and connectivity to market.**

PanGen Fiber System Solutions combine Panduit fiber optic connectivity with Prysmian's GenSPEED® fiber optic cabling for a highly integrated and engineered solution. PanGen Fiber Solutions deliver the same benefits as PanGen's copper systems including superior installation, first-rate technical support, and 25-year complete solution warranty.

WIDE BREADTH OF CABLE PRODUCTS

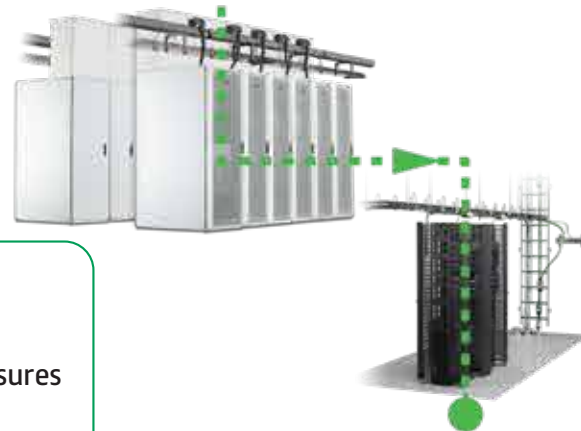

- Indoor, Indoor/Outdoor, OSP, Industrial and Harsh Environment
- Hybrid Copper/Fiber Configurations
- Multimode and Single Mode Glass Types

KEY FEATURES

- A single point of contact
- Guaranteed performance
- Installations covered by a 25-year comprehensive warranty program

SOLUTION

- Bulk Fiber Cable with Connectivity
- Fiber Patch Cords, Racks, Cable Management and Enclosures
- OptiCam 2.0 Termination Tool

Through our Panduit ONE Partner community, we offer vast experience in network design and engineering to provide system solutions to meet every application. Our certified installers are authorized to deploy solutions that can offer the PanGen Certification PlusSM System Warranty. This system warranty provides end users and customers the assurance that their new structured cabling system meets or exceeds the Commercial Building Telecommunications Cabling Standard.
