

Since 2004, Panduit and Prysmian Group's world-class partnership has provided high-performance infrastructure solutions, guaranteed network performance and system reliability. By combining the technological expertise and innovation of Panduit connectivity and Prysmian Group cabling products, PanGen Structured Cabling Solutions provide a wide range of fiber solutions to support your needs.

PanGen Fiber System Solutions combine Panduit fiber optic connectivity with Prysmian's GenSPEED® fiber optic cabling for a highly integrated and engineered solution. PanGen Fiber Solutions deliver the same benefits as PanGen's copper systems including superior installation, first-rate technical support, and a 25-year complete solution warranty.

WIDE BREADTH OF CABLE PRODUCTS

- Indoor, Indoor/Outdoor, OSP, Industrial and Harsh Environment
- Riser, plenum and LSZH options
- Multimode and Single Mode Glass Types

KEY FEATURES

- A single point of contact
- Guaranteed performance
- Installations covered by a 25-year comprehensive warranty program

SOLUTION

- Bulk Fiber Cable with Connectivity
- Fiber Patch Cords, Racks, Cable Management and Enclosures
- OptiCam 2.0 Termination Tool

Through our Panduit ONE Partner community, we offer vast experience in network design and engineering to provide system solutions to meet every application. Our certified installers are authorized to deploy solutions that can offer the PanGen Certification PlusSM System Warranty. This system warranty provides end users and customers the assurance that their new structured cabling system meets or exceeds the Commercial Building Telecommunications Cabling Standard.
